(Code 1984, § 375:120(2))

Sec. 36-103. Conditional use permits.

(a) *Purpose.* The purpose of a conditional use permit is to provide the city with a reasonable degree of discretion in determining the suitability of certain designated uses upon the general welfare, public health and safety. In making this determination, whether or not the conditional use is to be allowed, the city may consider the nature of the adjoining land or buildings, whether or not a similar use is already in existence and located on the same premises or on other lands immediately close by, the effect upon traffic into and from the premises, or on any adjoining roads, and all other or further factors as the city shall deem a prerequisite of consideration in determining the effect of the use on the general welfare, public health and safety.

(b) *Required information.* The information required for all conditional use permit applications shall generally consist of a site development plan which shall conform with the site plan review standards of article II, division 3 of this chapter.

(c) *Lapse of permit by nonuse.*

(1) Whenever, within one year after granting a conditional use permit, the use as permitted by the permit shall not have been completed or utilized, then such permit shall become null and void unless a petition for an extension of time in which to complete or utilize the use has been granted by the city council.

(2) Such extension shall be requested in writing and filed with the zoning administrator at least 30 days before the expiration of the original conditional use permit. There shall be no charge for the filing of such petition.

(3) The request for extension shall state facts showing a good faith attempt to complete or utilize the use permitted in the conditional use permit.

(4) Such petition shall be presented to the planning commission for a recommendation and to the city council for a decision.

(d) *Site improvement performance agreement and surety.*

(1) Upon city council approval of a conditional use and prior to the issuance of building permits or initiation of work on the proposed improvement or development, the developer shall execute a performance agreement setting out site improvement items and terms of completion of such items. The performance agreement and any surety required therein must be approved by the city attorney.

(2) Any surety required by the performance agreement shall be non-cancellable and shall guarantee conformance and compliance with the conditions of the site plan approval, the performance agreement and the ordinances of the city.

(3) The city shall hold the surety for such period of time as set forth in the performance

agreement.

- a. The surety may only be released by the city council.
- b. Periodically, the amount of the surety may be reduced by the city council.
- c. Reduction and release actions will only be initiated after proper request has been made by the developer.

(4) Failure to comply with the conditions of the conditional use permit approval, the performance agreement or the ordinances of the city shall result in forfeiture of the surety to the extent necessary to achieve the project's total compliance with the conditional use permit.

(e) *Permitted conditional use.* Where a present use lawfully existed on November 18, 1976, has continued uninterrupted since then, and is classified as a permitted conditional use by this chapter in the district in which the use is located, then a conditional use permit for such use shall be deemed to have been granted therefor.
